DETAILED ACTION

**Claim Rejections - 35 USC § 102**

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by USPN 4,069,554 to Minolla et al. Minolla et al discloses an adjustable fitting comprising;

a first horizontal member (1) having first and second ends; a second horizontal member (30) having third and fourth ends; a first vertical member (Fig. 7) having a top surface and a bottom surface extending between the first and third ends; a second vertical member (Fig. 7) having a top surface and a bottom surface extending between the second and fourth ends; a first ear (first arcuate outer-end section of 16) extending away from the junction between the second horizontal member and the first vertical member; and a second ear (second arcuate outer-end section of 16) extending away from the junction between the second horizontal member and the second vertical member; and a third horizontal member (11) having a first substantially c-shaped end (21, 19, 20) and a second substantially c-shaped end (21, 19, 20) as seen in Fig. 4; wherein the first substantially c-shaped end engages the first vertical member around both the top and bottom surfaces (Fig. 1); wherein the second substantially c-shaped end engages the second vertical member around both the top and bottom surfaces (Fig. 1); and wherein the third horizontal member is free to slide between the first and second horizontal members while engaging the first and second vertical members around both the top and bottom surfaces.

### **Response to Applicant's Arguments**

Applicant's arguments, on pages 4 and 5 of the amendment filed April 14, 2005, with respect to the rejection(s) of claim(s) 1 over #4,962,572 to Prentkowski has been fully considered and are persuasive. Therefore, the rejection has been withdrawn. However, upon further consideration, a new ground(s) of rejection is made in view of applicant's amendment to claim 1, thus #4,069,554 to Minolla et al has been cited which anticipates the amended claim. Accordingly, claim 1 is found to be unpatentable over Minolla et al.

### **Conclusion**

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
